Informatics student at Wijaya Kusuma University Surabaya with a strong interest in web development and experience in collaborative academic projects. Eager to apply technical, teamwork, and problem-solving skills through internship or entry-level opportunities in web development.

EXPERIENCE

Universitas Wijaya Kusuma Surabaya IT Research Team

July 2024 – January 2025

Project Manager

- Coordinated the development of a web-based educational game using Unity for academic research purposes.
- Managed team communication, task distribution, and project progress to align with project requirements and timeline.
- Collaborated with team members to ensure the project met client needs and was completed on schedule.

Hackathon Universitas Ciputra

March 2024

Team Lead

- Led a team in analyzing and solving a case study using the Business Model Canvas (BMC) framework.
- Facilitated group discussions to organize ideas, improve collaboration, and develop a structured solution.
- Presented the team's proposed solution clearly and effectively to the evaluators.

Google Solution Challenge

September 2023 – January 2024

Project Manager

- Coordinated team activities in developing a solution aligned with the Sustainable Development Goals (SDGs).
- Organized project discussions, task assignments, and progress tracking using Notion.
- Supported team collaboration to ensure tasks were completed according to the project timeline.
